

ARE YOU OR A LOVED ONE LIVING WITH AN AUTOIMMUNE DISEASE SUCH AS LUPUS (SLE)?

Fate Therapeutics is **currently enrolling patients** with certain autoimmune diseases in a research study called FT819-102. This clinical trial is testing a new type of CAR T-cell therapy that aims to help rebalance the immune system.

- ✓ **DEVELOPED TO ELIMINATE DISEASE-CAUSING B CELLS**, targeting the cause not just your disease symptoms
- ✓ **ADMINISTERED BY AUTOIMMUNE EXPERTS** in a carefully monitored clinical study
- ✓ **FINANCIAL SUPPORT** may be available for study patients to help with costs associated with participation

WHY FATE'S STUDY?

We understand your safety, comfort and time matter.

READY WHEN YOU ARE

Always Available

Our treatment is prepared in advance and available at the clinic so you can begin treatment without delays.

LESS TIME IN THE HOSPITAL

Allowing you more time to focus on what matters to you.

The design of our clinical study requires a shorter hospitalization period and fewer hospital visits compared to other currently available CAR T-cell therapies.

DESIGNED WITH SAFETY IN MIND

Your safety is our top priority

Our CAR T-cell therapy is made using a unique process starting with healthy cells to deliver a standardized treatment available to all.

Participation in our clinical trial provides access to an **innovative therapy** that has the potential to **improve your quality of life** and also help pave the way for future patients by **advancing research**.

Talk with your doctor to see if joining this study could be the right step for you. Together, you can decide what's best for your health and future.
